EarME FIT

Guiding earworn speaker

Completely wireless listening with no cables, no separate body-pack and nothing to plug in.

The receiver is the earpiece — a 24 g speaker that hooks over the ear, with no separate body-pack for the guest to carry and no earphone to plug in. The hook moves to either ear, noise reduction keeps the guide intelligible in a busy gallery or street, and a group can be formed, added to, or moved to another channel in seconds. The earpieces are collected back in and returned after use, like any other receiver.

Key features

- ✓ 100% cable-free design for freedom of movement
- ✓ Lightweight 24 g earworn receiver, with no separate body-pack
- ✓ Can be worn on either the left or right ear
- ✓ Noise-reduction technology for clearer listening in busy environments
- ✓ Simple and comfortable for guests to wear

BEST FOR

Museums & galleries

VIP & small-group tours

Walking tours

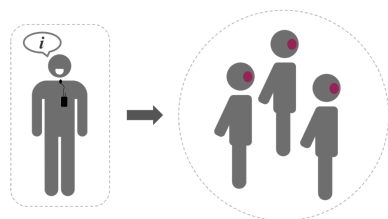

USED FOR

Safari & Nature

Guided Tours

Education & Events

1 Guide – 1 Group
FT1T & FT1

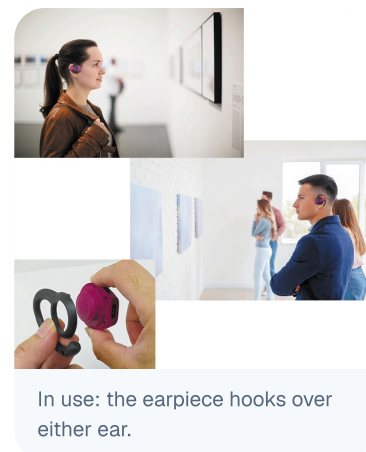

One guide, one group

The guide speaks into the FT1T transmitter. Every guest hears it through their own FT1 earworn receiver, with no cable and no body-pack, up to 60–90 m away depending on the site.

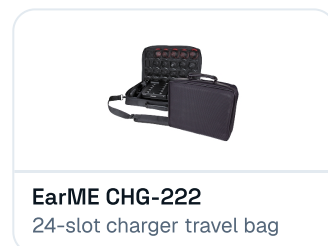

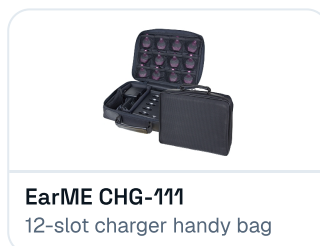

Specifications

Frequency & channels	Supplied in the South African configuration — confirmed with your quote
Modulation	Digital (4GFSK)
Operating range	60–90 m
Battery	Rechargeable Li-ion polymer
Battery life	FT1T transmitter ≈18 hr · FT1 earworn receiver ≈13 hr
Weight	≈24 g (FT1 earworn) · ≈50 g (FT1T transmitter)
Charging time	2–3.5 hr (magnetic)
Frequency response	300 Hz – 3.4 kHz
Dimensions	FT1T 15.4 × 43 × 80.6 mm · FT1 31.2 × 54.1 × 58 mm (D × W × H, without antenna)

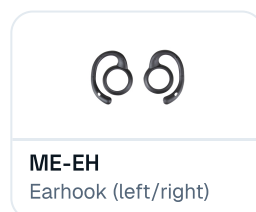

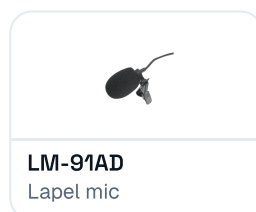

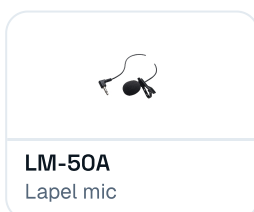

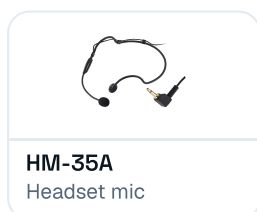

Manufacturer specifications (OKAYO), checked 1 October 2026. This model ships in region-specific variants — we'll confirm the correct one for South Africa with your quote. Range depends on the site, and battery life on use.

Charging and carrying

Microphones and accessories

Also: HEM-100A discreet mic · PM-20A gooseneck mic · N-32 and N-300 lanyards · Windscreen · LBT-200 lithium battery for FT1 · LBT-1300 lithium battery for FT1T

Options in the EarME FIT range. Tell us what you need and we'll confirm what suits your application, and its availability, in your quote.
